
WealthInvest Insurance Plan / WealthInvest Life Plan

Investment choice - performance report

July 2020

Important Risk Warning:

- ◆ The following investment choices are available for both WealthInvest Insurance Plan and WealthInvest Life Plan (collectively, "the Plans"), investment-linked insurance plans issued by HSBC Life (International) Limited ("the Company").
- ◆ Issuer's Risk - you rely on the Company's creditworthiness and your investments are subject to the credit risk of the Company.
- ◆ All premiums you pay towards your policy, and any investments made by the Company in the underlying funds, will become and remain the assets of the Company. You do not have any rights or ownership over any of those assets. Your recourse is against the Company only.
- ◆ You are not investing in the underlying funds and you do not have any rights or ownership over these underlying funds.
- ◆ Your potential return from investment is calculated by the Company with reference to the fluctuation of the performance of the underlying funds. Each of these underlying funds has its own investment objectives and associated risks.
- ◆ The investment choices available under the Plans can have very different features and risk profiles. Some may be of high risk.
- ◆ Early surrender, withdrawal, lapse or premium reduction (if any) of the Plans may result in a significant loss of your premiums paid and bonuses awarded (if any). Poor performance of the underlying funds may further magnify your investment losses, while all charges are still deductible.
- ◆ The potential return of the plans is based on investment choices linked to the Plans which is calculated or determined by the Company with reference to the performance of a corresponding fund, the potential return of investments under the plans shall be subject to the charges of the Plans and may be lower than the return of the corresponding fund.
- ◆ Please note the following relating to your death benefit and insurance charge:
 - Part of the fees and charges you pay that will be deducted from the value of your policy will be used to cover the insurance charge for the life coverage and any additional coverage you may choose.
 - Your policy provides life protection and additional coverage depending on the optional benefits you choose (if any).
 - The insurance charge will reduce the amount that may be applied towards investment in the underlying funds corresponding to the investment choices you selected.
 - The insurance charge may increase significantly during the policy term due to factors such as the life insured's age and investment loss. This may result in significant or even total loss of your premiums paid.
 - If the value of your policy becomes insufficient to cover all the ongoing fees and charges, including insurance charge, your policy may be terminated early and you could lose all your premiums paid and benefits.
 - If you are in doubt, you should make sure the intermediary has explained to you how the insurance charge may increase and could impact the value of your policy and the policy is suitable to you.
- ◆ The investment decision is yours but we strongly recommend that you do not invest in the Plans unless the intermediary who sells it to you has explained to you that the Plan is suitable for you having regard to your financial situation, investment experience and investment objectives.
- ◆ For details of the Plans including fees and charges, risk factors, please refer to the principal brochure of the Plans.
- ◆ Investment involves risks. Each Investment Choice is subject to market value fluctuations and to the risks inherent in all investments. The unit price and the performance of each Investment Choice may go down as well as up. Past performance of each Investment Choice is no guide to its future performance.
- ◆ Please note that the Plans are no longer offered to the public. The information shown is for existing policyholders only.

N/A : If the underlying fund corresponding to the relevant investment choice has not been launched during the specified duration, the relevant cumulative performance (in percentage return) and calendar year performance (in percentage return) will be displayed as "N/A"

Source: Morningstar Asia Limited. The launch date provided by Morningstar refers to the underlying fund class inception date. Data as of 31 Jul 2020.

Cumulative performance (in percentage return) represents the percentage change of the underlying fund unit price as at 31 Jul 2020.

Calendar year performance (in percentage return) represents the percentage change between the underlying fund unit price of the last available transaction date of each of the previous calendar years.

YTD performance (in percentage return) represents the change between the underlying fund unit price of the last available transaction date of 2019 and 31 Jul 2020.

All percentage return figures are calculated on a unit-price-to-unit-price basis and in relevant base currency of the underlying fund.

For the risk rating of the investment choices, please refer to www.hsbc.com.hk (HSBC>Insurance>Investment Performance>Consolidated risk rating) for more information.

Notes:

1. Each Investment Choice is divided into units. The allocation of units is purely notional and for the sole purpose of determining the Cash Value of your policy account at any time. You do not own units in any of the underlying funds of the investment Choice(s).
2. As the underlying investments may involve multiple currencies, the value of the investments may be subject to exchange rate fluctuations.
3. The Investment Choices are valued and traded on each Transaction Date. The unit price of each Investment Choice is equal to the unit price of its underlying fund on each Transaction Date. The number of notional units held is rounded to the nearest 5 decimal places. Any remaining balance or shortfall after such rounding will be absorbed or borne by the Company, as applicable.
4. AllianceBernstein - American Income Portfolio, AllianceBernstein - Global High Yield Portfolio and AllianceBernstein - Global Bond Portfolio are portfolios of ACMBernstein.
